

Port Security Information Bulletin PSIB 06-03

Captain of the Port Requests Maritime Stakeholder Participation

Waterfront facilities and vessel owners and operators including agents are urged to obtain an advanced copy of the interim Maritime Security (MARSEC) 2 measures from the Coast Guard Captain of the Port. The MARSEC 2 operational measures were recently reviewed and validated by the Port Security Subcommittee and are now available for broader distribution. In the event an elevated threat condition is set in the port, these interim MARSEC 2 measures would be invoked. In order to minimize disruption to commerce and ensure the seamless implementation of these measures, appropriate facility and vessel representatives who are responsible for operations and security are strongly encouraged to obtain an advanced copy.

The measures are available either electronically or they may be picked up at the Marine Safety Office (MSO). In order to obtain the measures a [SSI declaration form](#) will be required. It can be completed on line or in person at the MSO. The MARSEC 2 measures will be available for distribution at the MSO during the week of February 3-7 from 8 a.m. to 4 p.m. at 9640 Clinton Drive, Galena Park. No appointment is necessary. The MARSEC 2 measures may also be requested via e-mail at MSOHOUMDA@esunola.uscg.mil.

Recipients of the PSIB should ensure appropriate company personnel are made aware of its contents. For general information, contact 713-671-5100.

E. W. PARSONS
Commander, U.S. Coast Guard
Alternate Captain of the Port
